CAYMAN ISLANDS

Sex, drugs and rock 'n' roll, right? Wrong.
Cocaine can decrease your ability to perform properly.
Speed is known to decrease your mojo.
Marijuana causes a drop in sperm count for men and fertility issues for women.
As for alcohol... well, 'beer goggles' says it all.

**If sex means danger, then we are in danger.
If sex is endangered, then we are endangered.
Save Sex. Save Humanity.**

save sex
